6A-3.001 Basic Principles for Transportation of Students.

(1) Where it is practicable to provide improved transportation service and school facilities for students from an area in adjoining districts, district lines shall not interfere with the designation of a school attendance area composed of areas of two (2) or more districts. It shall be the duty of school boards and superintendents of the districts involved to develop a plan which will assure the children of the area adequate school advantages. Students shall not be transported at public expense across district lines unless an annual agreement exists between the respective school boards. This agreement shall outline the responsibility of each district for providing school facilities, including transportation, and specify which district shall have exclusive responsibility for providing and operating the equipment. Unless the agreement shall stipulate otherwise, the rules and regulations of the district in which the bus is traveling shall be observed.

(2) All school bus routes shall be so planned and adjusted to the capacities of available equipment and school buses should be so chosen and assigned to routes and attendance areas that insofar as practicable the full capacity of each bus will be utilized, without standees, to serve students whose homes are beyond reasonable walking distance of the assigned public school center.

(3) A reasonable walking distance for any student who is not otherwise eligible for transportation pursuant to Section 236.083, Florida Statutes, is any distance not more than two (2) miles between the home and school or one and one-half (1 1/2) miles between the home and the assigned bus stop. Such distance shall be measured from the closest pedestrian entry point of the property where the student resides to the closest pedestrian entry point of the assigned school building or to the assigned bus stop. The pedestrian entry point of the residence shall be where private property meets the public right-of-way. The district shall determine the shortest pedestrian route whether or not it is accessible to motor vehicle traffic.

Such examination shall be for the purpose of ascertaining whether the respective chassis or body model meets the specifications, including quality standards, required by the State Board.

(2) Upon examining the specifications or the demonstrator chassis or body model, the Deputy Commissioner for Planning, Budgeting and Management shall maintain a list of each chassis or body model that meets Florida school bus requirements. The Deputy Commissioner for Planning, Budgeting and Management or authorized representative shall furnish, upon request, superintendents a list of all chassis and body companies offering equipment for sale in Florida that meets the minimum specifications of the State Board.

delivered to school boards for the purpose of determining if applicable specifications and quality standards have been met. Should it be determined that any chassis or body delivered to a school board does not meet the standards approved by the State Board, including equipment specified, the manufacturer, distributor or dealer shall make satisfactory corrections as prescribed by the Deputy Commissioner for Planning, Budgeting and Management or authorized representative. The Deputy Commissioner for Planning, Budgeting and Management and the district receiving such equipment shall refuse further approval of bids submitted by the manufacturer, distributor and dealer or representative until satisfactory corrections are made.

(9) Upon acceptance of the pool purchase bid or establishment of a price by negotiation, each participating district shall issue a purchase order or orders for the equipment which it committed to the pool; provided the quantity of such orders may be increased by the school board.

(10) The Deputy Commissioner for Planning, Budgeting and Management shall review and approve purchase orders issued by the respective school boards and all other authorized purchasers of buses from the pool purchase bid for transmittal to the contractors.
